

# Perusall How To Documentation

## Assigning assignments in Perusall

- All assignments use the content that already exists in the library so if you want students to specifically do a quiz or annotate a video it has to be done by adding that content to your library tab
- From there head over to your Assignments Tab

## Assignment TAB

- Adding assignments is fairly easy as you simply need to click add assignment
- Or View Existing assignments and view students comments/score/data

## Assignment creation

- Content
  - The Content to give to the students including limiting how many pages they can view

- Can split assignment into several parts or all in one part
  - Quiz them about information they read about
- Options
  - Includes submission deadline
  - Assignment Name
  - Any Written Instructions
  - When assignment is visible
  - Who assignment is assigned to
  - Other Options
- Scoring
  - Default course settings
  - Custom settings
    - Custom Criteria
      - Comment Content
      - Opening Assignment
      - Reading To End
      - Active Engagement Time
      - Getting Responses
      - Upvoting
      - Quizzes
